

Holton Unlimited Bench Rest Shoot Rules:

- UBR rules will apply.
- Course of fire consists of 4 targets per yardage. 6 bullseyes per target. 264 points possible per target.
- In the event of a tie Creedmore rules will apply.
- Calibers not to exceed 30 caliber.
- Targets are sized for .223, .243 & .308 calibers. IE: If your caliber is .204, then you will shoot in the next caliber up (.223).
- UBR score shoots are to be a timed event. A warmup period will be added at the beginning of the first relay of up to 5 minutes, with 7 minutes remaining for each target for record. There is no limit on sighters within the 7 minute course of fire.
- Each class will run concurrently with other classes. The targets will be marked according to the class you are shooting in.
- Scoring to be "best edge".
- A gun can be shot up in class, but not down. Example: a factory gun can shoot in modified or custom, but a custom cannot shoot in factory or modified.
- Cross fires shall be reported to the Match Director immediately. Shooting the wrong target is considered a cross fire. Shooters are responsible to ensure they are shooting the correct target. Cross fire penalties will be a one point deduction for each record bull shot. If only the sighter is involved no penalty is incurred.

Factory Class:

- Rifles consist of major market manufacturers guns. The barrel must have a proof mark or other marking on the barrel matching it to the action. Stocks can be after-market if the type is normally used in the models manufacture, IE: McMillian stocks. Bedding or bedding blocks are allowed. New crowns are allowed on the factory barrel. Triggers may be tuned or changed out. This includes Sako, Kimber's, Cooper's, Savage and other gun makers. Remington 40x with a factory barrel are also considered factory.
- Any attachments to stock are restricted to front portion of stock and not to exceed 3" in width,
- All guns are to be fired with separate rests front and rear. Max 30 caliber.
- Weight limit 13.5 pounds.

Modified Class:

- Any factory action that has been modified. This includes rebarreling, restocking, rechambering, etc. Stocks not to exceed 3" in width.
- Any attachments to stock are restricted to front portion of stock and not to exceed 3" in width,
- All guns are to be fired with separate rests front and rear. Max 30 caliber.
- Weight limit 13.5 pounds.

Custom Class:

- Stock not to exceed 3" in width. This is the Bench rifles. Kelby's, Bat's, Hall, Borden, Stiller's and all others of this type.
- Any attachments to stock are restricted to front portion of stock and not to exceed 3" in width,
- All guns are to be fired with separate rests front and rear. Max 30 caliber.
- Weight limit 13.5 pounds.
